

DECLARATION OF CONFORMITY

Valtaro Motori S.r.l., via Primo Brindani N°33 CAP. 43043 Borgo Val di Taro (PR) Italy:

DECLARES

Under its responsibility, that the 3-phase and 1-phase asynchronous motors in AC current types: **M – MHE2 – MHE3 – MM – MMK – MMDE – MMD - MDP – MAF – MDPAF – MAS – MMAS – MDPAS – MAFAC – MDPFAC**, from it produced, are in compliance with the following European Directives :

- Low Voltage Directive 2014/35/UE (LVD) relating to the materials intended to be used within the voltage range from 50 to 1000 Volts in AC current
- Electromagnetic Compatibility Directive 2014/30/UE (EMC)
- Delegated Directive 2015/863/EU to Directive 2011/65/EU (RoHS II) concerning the restriction of use of certain hazardous substances in electrical and electronic equipment
- Regulation 2009/640/CE concerning the marking of classified IE2 and IE3 motors, for which the yield is defined in the norma EN60034-30

These motors are built in compliance with CEI 2-3 dossier 1110 (Rotating Electrical Machines), in accordance with CENELEC HD 53.1.S2 harmonization document corresponding to regulations IEC 34-1 and CEI 2-16 (classification of degrees of protection provided by enclosures for rotating electrical machines) , in compliance with the CENELEC EN 60034-5 harmonization document corresponding to IEC 34-5.
Regarding the “Directive Machines” 2006/42/CE, we remind the disposition for it the “**motor component**” can not be put into service before the machine, in which it will be mounted, has been declared in Compliance to dispositions of such directive.
In the use of motor, is compulsory to keep the security instructions showed in our user’s manual and especially the respect of regulation EN60204-1

VALTARO MOTORI S.R.L.
